#DEFINE

चिट-चैट on Cyber Security 360

with Harshit Gupta (Co-Founder #DEFINE)
(Application Security Engineer L2 - Zeta)

Agenda

01 ➤ Bhaiya Cyber security kya hoti?

02 ➤ Kuch domains bh hote hai kya?

03 ➤ Bhaiya kuch demo bh dikhaoge?

04 ➤ Surprise?

Cyber Security

साइबर सुरक्षा

Cybersecurity is the practice of protecting computers, servers, mobile devices, electronic systems, networks, and data from digital attacks, theft, and damage.

It involves implementing measures to prevent unauthorized access to information, as well as detecting and responding to security breaches when they occur.

Domains

Threat
Modelling

Compliance

Application
Security

SOC

Incident
Monitoring
& logging

Research on these domains is left as
an exercise for the attendees.

तर्क (Logic) समझो ?

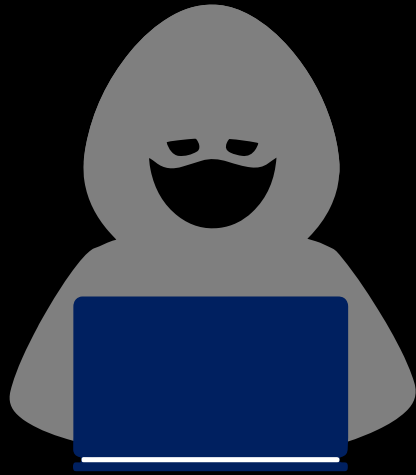

वो भी तो बताओ.....

फिर किक खा से मिलेगी Cyber Security चालू करने की?

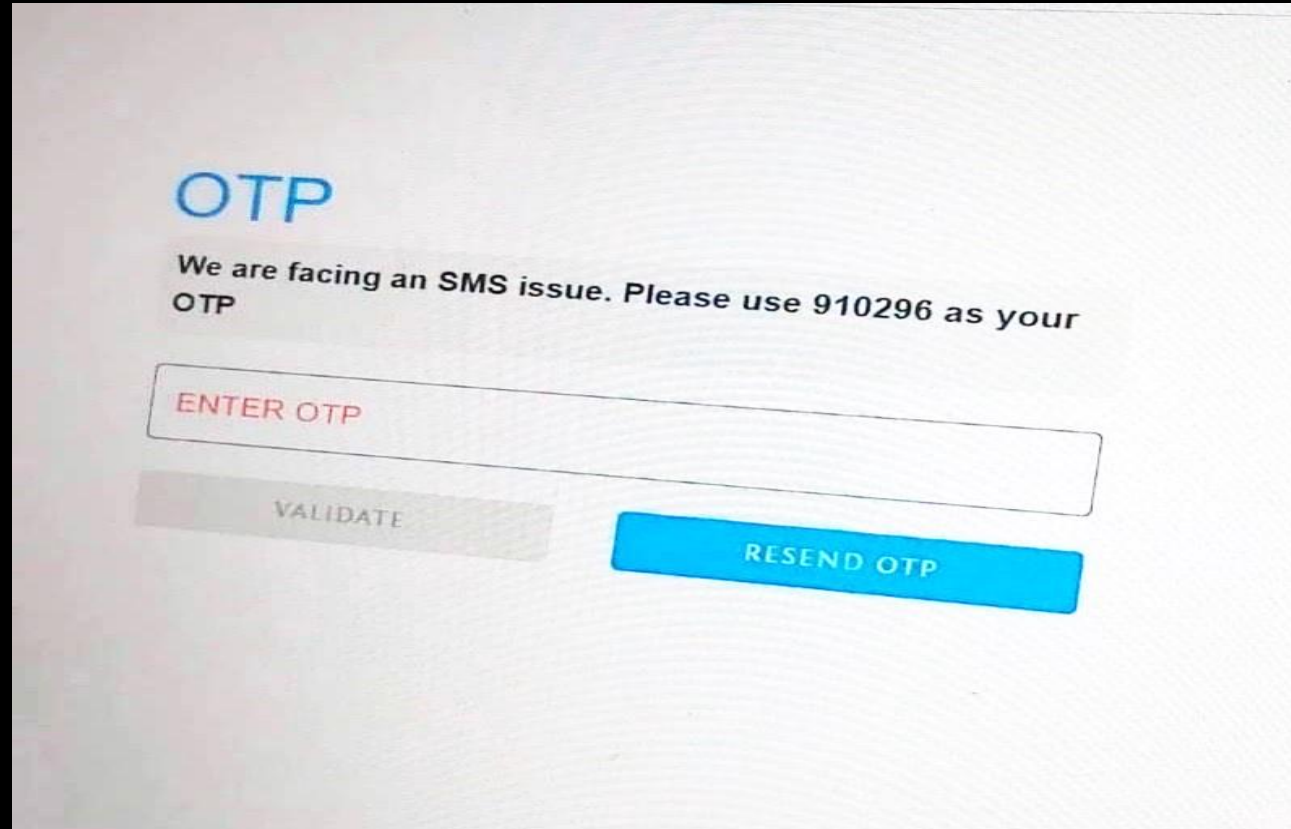

“The demo is for
Educational Purposes Only”

But one more meme for everyone!

Relatives: What does your son do?

Parents: My son is a Software Engineer. He is super intelligent.

Meanwhile son:

Everyone love this or not?
